

# Year 3 Spring 2 Computing- Presentation Skills

## Big Question

Which Features Make a Presentation Effective?

### Key Vocabulary for the unit:

**Presentation:** A visual way of displaying information to an audience that is clear and engaging. It can contain text, images, animation and videos.

**Animation:** : The process of adding movement to still objects.

**Media :** Information in the form of words, sounds, numbers, images, or graphics in electronic, print or broadcast form.

**Slide:** A single page within a presentation.

**Slideshow:** A collection of pages arranged in sequence that contains text and images to present to an audience.

**Text Box:** An object that can be inserted into a piece of work in a program that allows the user to input text.

**Transition:** How a slide moves from one to the next.

**Word Art:** A way of changing the appearance of text often using decorative shapes.

### Powerful knowledge/skills for this unit:

- ◆ I can create a story to present with different outcomes.
- ◆ I can add slides and insert hyperlinks.
- ◆ I can add themes, transitions and animations.
- ◆ I can use action settings.
- ◆ I can insert audio and video.
- ◆ I can evaluate and improve my work.

### What I should already know from Year 2:

- ◆ I can organise ideas for a presentation.
- ◆ I can add text to a presentation.
- ◆ I can add and format an image.
- ◆ I can reorder slides.
- ◆ I can search and print.

### Useful diagrams for the unit:
