

The End Point

To design and create a Greek pot

Focus Artists

Greek Pottery

What should I already know?

- Show an awareness of safety using tools.
- Create objects for purpose.
- Use malleable materials to create art.
- Engrave details into sculptures.

Powerful Knowledge

- Use pinch, slab or coil techniques when creating sculptures from clay.
- Finish sculptures by painting.
- Create sculptures from observation and imagination.
- Use tools to effectively engrave sculptures.

Pinch Technique

Slab Technique

Coil Technique

Vocabulary

sculpt	To create solid objects made out of a material such as wood, clay, metal or stone.
malleable	Capable of being shaped.
slip	Particles of clay in water. It is used to bond pieces of clay, to decorate and protect pottery.
Engrave	Cut or carve on the surface of a hard object.
pinch technique	Pinch the clay into the shape desired.
slab technique	Use smooth slabs of clay that are formed around moulds or shaped and cut by hand.
coil technique	Work the clay in the form of ropes, then roll the ropes over each other to create a shape.
